

Summer School Sail and Learn 2017

The summer school you will never forget is looking for new crew members for its 2017 adventure.

5 ECTS

7 days

4 islands

No reason not to join.

15th - 22nd July 2017.

*There is nothing like the sight of crystal - clear sea in the early morning and the urge to jump in the water.
The feeling is overwhelming even more when you realize you are not dreaming.*

- Sail and Learn 2016 experience

4 islands in 7 days and a carefully - designed international program

The Sail & Learn educational program starts on a sailboat in Trogir (Split), and sails to the islands of Šolta, Hvar, Vis and Brač and finishes the route just in time for the Ultra Summer Festival 2017 in Split or to continue exploring the beauties of the Croatian Mediterranean coast!

The Sail & learn program consists of two major components: educational and cultural.

The Educational Component lies within the program, i.e. a curriculum that focuses on topics in Leadership, Management and Entrepreneurship. Furthermore, the educational program consists of both theory and practice. Both are managed and carefully assessed by course instructors/business trainers

The Cultural Component expands through the whole program by providing a unique experience for all participants. They have an opportunity to learn the rich and unique historical background of all the islands they visit. It will provide them with inspiration and materials to work on their projects and ideas.

Specific goals to be achieved through the cultural component of the program for students are to:

- provide students with a unique cultural experience
- expand student knowledge of Croatian and European culture
- familiarize students with Croatian and European cultural heritage
- provide students with an opportunity to explore a variety of cultural differences

The sail and learn program was an incredible experience. Students not only received leadership training but also a cultural experience that will never be forgotten. The sail and learn program taught me skills in business and international interactions that will benefit me in my future career!
